2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

Mt. McKinley EAGLES

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

The Contra Costa County Court School Program is part of the Contra Costa County Office of Education. The Program serves students from the eighteen school districts within the Contra Costa County area. Mt. McKinley School (MM) serves students who are housed in the Contra Costa Juvenile Detention Center in Martinez. The students in our school are either incarcerated in detention awaiting the outcome of their court proceedings or outside placement or have been sentenced to the treatment program housed inside the facilities. We also serve a population of students who have graduated high school and are

engaging in community college classes. These are Transition-Aged Youth. Mt. McKinley school is accredited by the Western Association of Schools and Colleges (WASC) and up for a full review of accreditation in the 2024-25 school year.

The mission statement of Mt. McKinley School is: "We believe that all students want to learn and are capable of learning. At Mt. McKinley, all students engage in transformative learning according to their individual needs, to achieve their potential, and to positively participate and contribute to their community."

Mt. McKinley School contains essentially two school programs within one. The high school program consists of five different classrooms, staffed by a credentialed Multiple Subjects teacher and an Instructional Assistant. The classroom program is augmented by a 1.0 FTE Special Education teacher, a .8 FTE School Psychologist, a 1.0 Intervention and Program teacher, and .5 Special Education Administrator, a 1.0 Transition Specialist, 2.0 FTE Career and Technical Education Teachers (CTE), a 1.0 Educational Liaison, a 1.0 School Administrative Assistant, and a .5 FTE Student Information Systems Specialist. Our college program is supported by a 1.0 Adult Credential Teacher, and a 1.0 Instructional Assistant.

Upon enrollment at Mt. McKinley School, students engage in local assessments which measure their abilities in Reading and Mathematics. A comprehensive review of all school records is completed and students are placed into educational and daily intervention programs which meet their specific needs as well as screened for transition supports such as connection to our districts Youth Services team (to provide supports for McKinney-Vento, Foster Students, and the Workability Program) as well as screened for any transcript and graduation supports such as AB2306 Credit Reductions. Students receive Intervention Services in the areas of reading fluency, Mathematics, and English Language Development. These interventions are supported through a school-wide Multi-Tiered Systems of Support program which is evaluated and reviewed monthly. Mt. McKinley School's student population is comprised of about 60 students ranging from the 7th grade to college. All students are provided school services and supports for 1300 minutes a week.

African American students enrolled in the court school at a disproportionate rate (55%). English Learners comprise about 21% of the student population in Mt. McKinley. Students with Disabilities are offered Counseling and Specialized Academic Instruction, and comprise of about 40% of our population.

All curriculum at Mt. McKinley School is A-G and CCCOE Board of Education approved. The school works with the County Office Curriculum and Instruction Department to pilot, adopt and implement new materials and receives regular Professional Development in the area of curriculum through both internal and external experts.

We will accomplish our program's mission and help support our local districts by focusing on the following four goals:
Goal 1: Create safe, inclusive, and welcoming learning communities where students attend and are connected to their schools, foster respectful and collaborative school cultures that promote students' social-emotional well-being and increased engagement
Goal 2: Execute equitable, high quality instructional programs and provide educational options to ensure every student graduates college and career ready
Goal 3: Fully implement a tiered integrated social-emotional program to support the well-being of all students and staff by promoting prosocial behavior, teaching coping and decision-making skills, and modeling positive relationships.
Goal 4: Engage parents/guardians, families and community partners through education, communication, and collaboration to promote student success

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. 2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The textbooks and instructional materials for the Court & Community Schools are adopted and approved by the local Board. Every student, including English Learners, within this program has access to these adopted materials for use both in the classroom and outside the classroom (as needed). Savvas History Social Science was adopted in 2022 and is used as our A-G aligned curriculum. Big Ideas was adopted as our High School Math A-G aligned curriculum in 2016. Go Math was adopted as our Middle School Math curriculum in 2015. Reading with Relevance was adopted as our ELA A-G aligned curriculum in Fall 2018. Edgenuity is used to supplement ELA/Social Studies/History/Science instruction as needed and is A-G aligned.

School Facility Conditions and Planned Improvements

The Mt. McKinley School -Martinez site is housed in the Contra Costa County Juvenile Hall. The school has nine classrooms, a library, computer lab, an assessment center and athletic gym and field. Because the school is within the Juvenile Hall the Probation Department is responsible for the facility and no FIT report is done by CCCOE.

While on the school site, students are under direct supervision from classified, certificated, and probation personnel.

Access to the school site is restricted, requiring all visitors to check in at the main office for clearance and registration. The facility and grounds are observed and monitored for unauthorized visitors who are reported to the main office for appropriate action. When visitors are approved to be on campus they are given a temporary badge identifying them as a guest. Volunteers are required to be interviewed and approved by site administration and to register with the central office Human Resources Department and receive TB clearance. All regular personnel are provided with picture I.D. badges for their use.

The site is regularly cleaned and maintained by custodial staff employed by the County Probation Department. Facilities maintenance is ongoing and coordinated with the site principal through the Probation Department.

More intensive cleaning and maintenance occurs during student break/vacation periods in order to minimize impact to learning environment.

The site is in good repair and free of adverse conditions detrimental to student learning. Emergency repairs are typically handled in a timely manner.

Adequate and appropriate classroom and outdoor space is available. Outdoor areas have been recently upgraded to current safety codes. Workspace and break/lounge areas for staff have been designated.

2023 Fit Report for Mt. McKinley School is 98.33% with a rating of "Good"

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 Career Technical Education Programs

Providing access to College and Career learning opportunities is one of Mt. McKinley School's goals. In collaboration with our CCCOE District Leaders, Mt. McKinley staff provide opportunities for students to engage in our CTE Computer Science class, CTE Residential Commercial and Commercial Construction Class, and the Multi-Craft Core Curriculum pre-apprenticeship program. In addition to these career opportunities, students have opportunities to enroll in local community college classes for Computer Science as part of our CTE Computer Science Pathway. Each pathway consists of an Introductory, Concentrator, and Capstone class.

CTE pathways provide additional opportunities for students to complete Industry Standard Certifications such as OSHA 10, First Aid, and coding certifications. These opportunities are provided by the support and training of our district CTE staff. In addition to those training opportunities, Mt. McKinley's CTE teachers can engage in mentoring, training, and professional development opportunities. Mt. McKinley School's CTE staff regularly maintain regular and open communication with our district CTE staff to ensure best practices for CTE Pathways. We also collaborate weekly with the Probation management to ensure we continue to maintain a safe and secure learning environment to all while still providing cutting-edge and relevant learning opportunities for our students. In addition to the professional development and support provided by our district CTE team, Mt. McKinley's CTE staff can attend related conferences to enhance their knowledge and practices in CTE.

Students can participate in additional CTE courses through its online learning management system. Students are annually surveyed on desired CTE options which are presented to the school and district teams to identify the most effective learning opportunities and offerings for our students. All high school graduates can participate in classes at local community colleges.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Creating opportunities to engage parents, guardians, and caregivers is a key component to Mt. McKinley's mission and vision. Parents receive quarterly progress reports mailed home which measure student progress (up to five times per year). Students with Disabilities are measured quarterly on their progress towards their Individualized Education Plans (IEP) goals. Parents of students who are enrolled in Court-mandated programs (Briones Youth Academy and Girls in Motion) participate in Multi-Disciplinary Team (MDT) meetings upon enrollment and every six-months thereafter to measure progress towards rehabilitation and graduation. Parents of Students with Disabilities participate in IEP meetings upon enrollment and annually thereafter.

Mt. McKinley has established a School Site Council that serves as the school community representative body for determining the focus of the school's academic instructional program and all related categorical resources. The Legislative intent for the formation of School Site Councils is that individuals who are most affected by the operation of the school should have a major role in the decisions regarding how a school functions. Mt. McKinley also has established a ELAC separate from the Site Council and shall be responsible for advising the principal and staff on the development, implementation and review of best practices to support its English Learner Population.

Increasing school to home communication and connectedness is one of Mt. McKinley School's goals. It will achieve this by increasing access to classroom to home communication options and increased parent engagement opportunities such as a School-wide messenger service, parent participation in graduation ceremonies, and increased communication from classroom staff to homes.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

2023-24 School Safety Plan

The School Safety Plan was last reviewed, updated, and discussed with the school faculty and presented at the February 2023 Site Council for final review/annual approval prior to board approval.

Mt. McKinley School's Comprehensive School Safety Plan is reviewed with school staff regularly. It is developed and approved by our School Site Council in January of each school year and submitted to our CCCOE School Board for approval in February of each school year. The CSSP includes plans not only for emergencies, but establishes the school's best practices for Uniform Complaints, Child Abuse reporting, Suspension and Expulsion plans, School Discipline rules and guidelines, dress code policy, harassment and discrimination policy, and site maps.

In collaboration with the school's Probation liaison, the CSSP is reviewed in monthly staff meetings. This school year it was reviewed at staff meetings on 9/13, 10/11, 11/1/2023, and 11/29/2023. Information gathered during these staff meetings was used to create the CSSP, and it will be reviewed by the SSC on 1/24/2024 and then submitted to the CCCOE School Board for approval in February of 2024. The CSSP contains detailed information on required emergency procedures for school staff. This includes expectations for behavior during emergencies and evacuation plans (when appropriate). Staff are regularly consulted about best practices for emergencies such as wearing ID badges, radio communication, attendance taking requirements, and school-wide sign in and sign out procedures. Staff regularly review disaster procedures and drill protocols and collaborate on drill participation with Probation, in accordance to an approved schedule.

Mt. McKinley Staff participate in a monthly safety meeting with members from all departments in our facility. Information provided from those meetings is communicated to school staff and input provided, when appropriate. Mt. McKinley staff have an emergency communication phone tree and message services to update staff on procedures in the event of an emergency. All CCCOE administration staff participated in a PREPaRE training highlighting the need for a comprehensive plan for disasters and reunification of staff and students to families, when appropriate.

Professional Development

Mt. McKinley School participates in Professional Development that is aligned to specific goals in its SPSA and WASC plan. Mt. McKinley staff have two professional development days prior to the beginning of the school year, one Institute Day (a district-wide day of Professional Development), and a Professional Development Day in March of each year. Mt. McKinley School staff meet one to two times per month for a Wednesday staff meeting throughout the school year. Staff are given two Wednesday afternoons a month for Staff Collaboration.

Professional Development Days consist of training on new curriculum and teaching strategies for Social Emotional Learning, English Language Arts, Mathematics, Science, and History / Social Science. These trainings focus on how to implement best practices in the classroom and to familiarize staff with new curriculum developments. Staff also have opportunities for classroom specific coaching from community, district, and local leaders in each of these subject areas. Mt. McKinley's Professional Development plans also include staff-selected trainings focusing on the supplemental intervention and support programs for Reading and Mathematics Intervention and English Language Development. The focus of all curriculum-focused PD is to increase the rigor of instruction and to increase student achievement. Mt. McKinley staff meet monthly to review MTSS goals and review student data to adjust or identify needed student-specific interventions

All Mt. McKinley staff are required to participate in Probation mandated trainings. These trainings are offered annually and bi-annually. In addition to Probation required trainings, staff participate in district-mandated trainings for Sexual Harassment, Suicide Prevention, Bloodborne Pathogens, and District policy updates.

In addition to the above training opportunities, all staff have the opportunity for additional Professional Development in the form of conferences and county-wide subject-specific committees. The county-wide subject-specific committees meet monthly and provide selected staff the ability to collaborate with peers across the county and discuss school specific needs and updates to legislation regarding their subjects. All staff are afforded opportunities for off-site conferences which provide options for team building and learning about new methods and practices of instruction for court-school students. Some of these conferences are the annual Juvenile Court, Community and Alternative School Administrators of California conference, the annual MTSS conference, and the California Association of Bilingual Educators.

This table displays the number of school days dedicated to staff development and continuous improvement.
